*A Loving Home*

So Happy To Meet You!

The word "home" is engraved on our wedding rings. No matter where we are or how far we travel, our home is where our family is. If you choose our family, your baby will truly have a home of love that will go and grow with them in all they do. They will be secure, safe, supported and most of all loved beyond measure forever.

# About Us

We've been married for 15 years. We are really down to earth people and value acceptance and non-judgmental attitudes. We love learning. We are thoughtful parents, who still remember what it's like to be a kid and try our best to stay aware and listen to our children. We strive every day to pour ourselves out for our kiddos and lead them in the way that they should go with love and respect and clear, concise, and consistent instruction.

During the week while daddy is working, mommy is home with the younger children, teaching basic life skills and pre-k academics. School age kiddos are in the best private school and participate in many extra curricular activities, such as, Tennis, Gymnastics, Piano and Chess. On the weekend, you will find us relaxing at home, completing a family project or having family and friends over for a barbecue and karaoke. We may even be on a nature trail or riding scooters or bikes.

Our home is right next to a park with a big grassy field, tall trees, a play set and a huge sand box. We live in a beautiful, two-story, five bedroom, three bathroom, home with a big backyard. There's a playhouse, a swing set with slides, a trampoline, and a garden. Our hometown is close enough to the city to go everywhere and see everything but far enough away to be quiet and safe. There are farms nearby, where we feed cows, goats, pigs and chickens and we can get fresh eggs and milk. It is a wonderful place for children.
